

Jino

ATTENZIONE!

L'installazione deve essere eseguita esattamente come da istruzioni fornite dal produttore e solamente da personale qualificato. Per prevenire la caduta del mobile, prima di eseguire l'installazione verificare la tipologia di parete e scegliere le viti ed i tasselli/ancoraggi adeguati. Per prevenire la caduta del carrello rispettare tassativamente le quote di installazione, in particolare l'altezza da terra delle guide fissate sul mobile, usando la dima in dotazione.

INDICAZIONI PER LA SICUREZZA E AVVERTENZE

Questo carrello è stato studiato e verificato in base alle vigenti norme in materia di sicurezza. Non salire/sedersi sul cassetto, o sui ripiani laterali, o sul piano superiore. Non usare il prodotto come scaletta. Un uso improprio può comunque causare danni a persone e/o cose. Leggere attentamente le istruzioni d'uso e di montaggio prima di mettere in funzione il carrello. Contengono informazioni importanti su incasso, sicurezza, uso e manutenzione. In questo modo si evitano danni a se stessi e al carrello. Vibo avvisa espressamente che è assolutamente necessario leggere e seguire le informazioni contenute nel capitolo per l'installazione del carrello nonché le indicazioni e le avvertenze di sicurezza. Vibo non risponde dei danni che derivano dall'inosservanza di queste avvertenze. Di tanto in tanto, controlla che tutti i fissaggi, le aperture, le guide, i profili di fissaggio, le maniglie, i supporti, etc. siano saldamente posizionati. Conservare le presenti istruzioni d'uso e di montaggio.

USO CORRETTO

Questo carrello è destinato esclusivamente all'uso domestico. Il carrello va utilizzato su superfici prive di ostacoli come ad esempio soglie, scalini, rialzi, ribassi ecc. Questo elemento non è destinato all'impiego in ambienti esterni. Qualsiasi altro impiego non è ammesso. Le persone che per le loro capacità fisiche, sensoriali o psichiche o per la loro inesperienza o non conoscenza non siano in grado di utilizzare in sicurezza il carrello, non devono farne uso senza la sorveglianza e la guida di una persona responsabile. I bambini più grandi e responsabili (dagli otto anni) possono eventualmente utilizzare il carrello senza sorveglianza solo ed esclusivamente se è stato loro spiegato come funziona e se sono in grado di farlo funzionare in tutta sicurezza. È importante che sappiano riconoscere e comprendere quali pericoli possono derivare da un uso non corretto del carrello.

ATTENTION!

Installation must be performed exactly as per the instructions provided by the manufacturer and only by qualified personnel. To prevent the cabinet from falling, check the type of wall and choose appropriate screws and anchors before installation. To prevent the trolley from falling, strictly observe the installation dimensions, especially the height from the ground of the rails fixed on the cabinet, using the template provided.

SAFETY INDICATIONS AND WARNINGS

This cart has been designed and tested according to current safety regulations. Do not climb/sit on the drawer, or side shelves, or top shelf. Do not use the product as a stepladder. However, improper use may result in personal injury and/or property damage. Read the operating and assembly instructions carefully before operating the cart. They contain important information on embedding, safety, use and maintenance. This will prevent damage to yourself and the cart. Vibo expressly warns that it is imperative that you read and follow the information in the chapter about the trolley installation as well as the safety directions and warnings. Vibo is not liable for damage resulting from failure to follow these warnings. From time to time, check that all fixings, openings, runners, securing profiles, handles, attachment brackets, etc. are securely in place. Retain these operating and assembly instructions.

CORRECT USE

This cart is intended for home use only. The cart should be used only on surfaces free of obstacles such as thresholds, steps, elevations, lowers, etc. This item is not intended for outdoor use. Any other use is not permitted. Persons who, because of their physical, sensory or mental abilities or because of their inexperience or lack of knowledge, are unable to use the trolley safely, should not use it without the supervision and guidance of a responsible person. Older, responsible children (from the age of eight) may possibly use the trolley unsupervised only and exclusively if it has been explained to them how it works and if they are able to operate it safely. It is important for them to be able to recognize and understand what dangers may result from incorrect use of the trolley.

AVVERTENZA!

Leggi attentamente le istruzioni prima del montaggio e segui ogni passaggio indicato. L'azienda declina ogni responsabilità dall'uso improprio del prodotto. Ogni uso improprio del prodotto può causare lesioni. Modifiche o manomissioni del prodotto, annullano ogni condizione di garanzia.

WARNING!

Read the instructions carefully before assembly and follow each step indicated. The company declines all responsibility for improper use of the product. Any improper use of the product can cause injury. Modifications or tampering with the product void any warranty conditions.

MANUTENZIONE

Inquadrate il codice QR per scoprire il modo corretto di smaltire l'imballaggio e la corretta manutenzione del prodotto.

BAMBINI

Tenere lontano dal carrello i bambini al di sotto degli otto anni, in alternativa sorvegliarli costantemente. Sorvegliare i bambini che si trovano nelle immediate vicinanze dell'apparecchio. Non permettere loro di giocarci. Pericolo di soffocamento. I bambini giocando possono avvolgersi nel materiale d'imballaggio (p.es. pellicole) oppure infilarselo in testa e soffocare. Tenere il materiale d'imballaggio lontano da bambini eventualmente presenti in casa.

SICUREZZA TECNICA

Riparazioni o lavori di installazione e di manutenzione non correttamente eseguiti possono mettere seriamente in pericolo l'utente. Lavori di installazione e manutenzione nonché riparazioni possono essere eseguiti solo da personale tecnico qualificato. Un carrello danneggiato può essere pericoloso per la sicurezza. Controllare che il carrello non presenti danni visibili. Non mettere mai in funzione un carrello difettoso. Non utilizzare questo prodotto in luoghi non stazionari (ad es. sulle navi). Sostituire eventuali pezzi guasti o difettosi esclusivamente con ricambi originali Vibo; solo così Vibo può garantire il pieno rispetto degli standard di sicurezza. Rivolgersi al servizio di assistenza tecnica Vibo.

SMALTIMENTO DELL'IMBALLAGGIO

L'imballaggio ha lo scopo di proteggere la merce da eventuali danni di trasporto. I materiali utilizzati per l'imballaggio sono riciclabili, in quanto selezionati secondo criteri di rispetto dell'ambiente e di facilità di smaltimento. I singoli componenti dell'imballaggio possono essere raccolti separatamente secondo i criteri della raccolta differenziata. Restituire gli imballaggi al circuito di raccolta dei materiali consente da una parte di risparmiare materie prime e dall'altra di ridurre il volume degli scarti.

SMALTIMENTO DEI CARRELLI

I carrelli contengono spesso materiali utili. Smaltirli in modo non adeguato o nei rifiuti domestici potrebbe nuocere alla salute e all'ambiente. In nessun caso quindi smaltire queste apparecchiature nei normali rifiuti domestici. L'adeguata raccolta differenziata contribuisce a evitare possibili effetti negativi sull'ambiente e sulla salute e favorisce il riciclo dei materiali di cui è composto il prodotto. Accertarsi che fino al momento dello smaltimento, il prodotto sia tenuto lontano dai bambini.

CHILDREN

Keep children under eight years of age away from the cart; alternatively, supervise them constantly. Supervise children who are in the immediate vicinity of the equipment. Do not allow them to play with it. Choking hazard. Children playing can wrap themselves in the packaging material (e.g., film) or put it on their heads and suffocate. Keep packaging material away from children who may be in the house.

TECHNICAL SAFETY

Repairs or improperly performed installation and maintenance work can seriously endanger the user. Installation and maintenance work as well as repairs may only be carried out by qualified technical personnel. A damaged trolley can be a safety hazard. Check the trolley for visible damage. Never operate a defective cart. Do not use this product in non-stationary locations (e.g., on ships). Replace any faulty or defective parts only with original Vibo spare parts; only then can Vibo guarantee full compliance with safety standards. Contact Vibo's technical service department.

PACKAGING DISPOSAL

The purpose of packaging is to protect the goods from any transportation damage. The materials used for packaging are recyclable, as they are selected according to criteria of environmental friendliness and ease of disposal. The individual components of the packaging can be collected separately according to separate collection criteria. Returning packaging to the materials collection loop saves raw materials on the one hand and reduces the volume of waste on the other.

DISPOSAL OF TROLLEYS

The trolleys often contain useful materials. Disposing of them improperly or in household waste could harm your health and the environment. Therefore, under no circumstances dispose of this equipment in normal household waste. Proper separate collection helps to avoid possible negative effects on the environment and health and promotes the recycling of the materials from which the product is made. Make sure that until disposal, the product is kept away from children.
